

2010 IEEE

# Compound Semiconductor IC Symposium

INTEGRATED CIRCUITS IN GaAs, InP, SiGe, GaN and OTHER COMPOUND SEMICONDUCTORS

October 3–6, 2010  
Monterey, CA, USA

Sponsored by the IEEE Electron Devices Society  
Technically co-sponsored by the Solid State Circuits Society  
and the Microwave Theory & Techniques Society

## LATE NEWS CALL FOR PAPERS Deadline July 5, 2010

We cordially invite you to submit a Late News paper at the 2010 IEEE Compound Semiconductor IC Symposium (CSICS) being held October 3–6<sup>th</sup> in beautiful Monterey, California. A 4-page camera ready version of recently completed work that reports significant new results qualifies for consideration as a candidate for a late news paper. The CSICS web site, located at [www.csics.org](http://www.csics.org), will be open from June 1 to July 5 for late news submissions. Please follow the “Late News” link under “Author Information” on the left hand side of the web page and choose Regular Submission as the Paper Category and Late News Papers as CSIC2010 Topic Categories on the submission site. Authors will be informed regarding the results of their submissions by July 19.

CSICS is the preeminent international forum for developments in compound semiconductor integrated circuits, embracing GaAs, InP, GaN, SiGe, and more recently, CMOS technology. Coverage includes all aspects of the technology, from materials issues and device fabrication, through IC design and testing, high volume manufacturing, and system applications. It provides the ideal forum to present your latest results in high-speed digital, analog, microwave/millimeter wave, mixed mode, and optoelectronic integrated circuits. First-time papers concerned with the utilization and application of InP, GaAs, SiGe, GaN and other compound semiconductors in military and commercial products are invited.

As part of the symposium, a technology exhibition will be held on Monday and Tuesday. The exhibition will feature informative and interesting displays with corporate representatives on hand. The list of exhibitors can be found in the CSICS advance program which will be published and distributed in June.

To complement the Symposium, there are several social events which include the Sunday Evening CSICS Opening Reception, the Monday CSICS Exhibition Opening Reception, the CSICS Tuesday evening theme party, and the CSICS Exhibition Luncheon on Tuesday. Breakfasts and coffee breaks will also be served on Monday, Tuesday, and Wednesday.

The Symposium will be held at the Portola Hotel located in downtown Monterey. Situated 115 miles south of San Francisco and 350 miles north of Los Angeles, Monterey features a stunning waterfront, a lush urban forest, a rich array of historic and cultural resources, museums, gardens, recreational activities and a wide variety of special events scheduled throughout the year. Monterey is the home of the world-class Monterey Bay Aquarium located on the street immortalized in John Steinbeck's novel Cannery Row. Monterey's rich history includes Spanish exploration dating back to 1542, and the establishment of the San Carlos Cathedral by Father Junipero Serra in 1770. It was the site of Alta California's capital under Spain and later Mexico, and the place where California statehood began in 1849.

For registration and further information please visit the CSICS website at <http://www.csics.org>. Further questions may be addressed to the Symposium Chair: Dave Halchin, Ph:1-336-678-8123 Email: [dhalchin@rfmd.com](mailto:dhalchin@rfmd.com).
